System Information

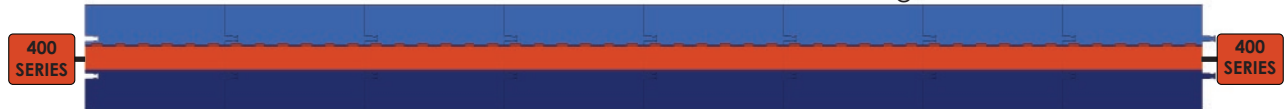

Because of the versatility provided by the dual series ChronoTrack Controller and the modular D-Tag Interrogator (Gator), the ChronoTrack System is highly configurable. Timing locations can be configured from 42 inches up to 56 feet of continuous lengths with one controller covering as much as 28 feet. The 400 Series ChronoTrack Controller will connect up to 4 Gators (42 inches to 14 Feet) and the 800 Series will connect up to 8 Gators (42 inches to 28 Feet).
